

RASTO is a versatile 60 kN/m<sup>2</sup> wall formwork, which offers an ideal solution for small and mid-size projects, especially in residential construction.

At Work For You

RASTO is a frame panel formwork that can – up to a panel width of 90 cm – be used by hand without a crane or as large-area units with a crane.

## Product benefits

#### Versatile

Highly versatile wall formwork system with the same connection elements for every project size

RASTO multi-purpose panels for easy forming of columns and corners

#### Strong & durable

Longer service life due to the robust, galvanised steel frame profile with 12 cm thickness

#### **Easy handling**

The easy-to-use outer corner clamp makes an outer corner out of two standard panels

The adjustable aligning clamp permits adjustments up to 15 cm and flush, force-fit connections

#### **Economical**

Craneless forming possible due to low weight of basic RASTO panels

RASTO aligning clamps provide a strong, tight and flush panel connection in just one working step

RASTO XXL panel for large-area forming

for every project size

 Highly versatile wall formwork system with the same connection elements

Craneless forming possible due to low weight of basic RASTO panels

# Technical data

| Product description        | Versatile panel formwork system  |
|----------------------------|--|
| Panel widths               | 30   45   50   60   75   90   240 cm   |
| Panel heights              | 120   150   270   300 cm   |
| Multi-purpose panels       | 70 x 150   70 x 270   70 x 300 cm  |
| Profile thickness          | 12 cm steel frame profile  |
| Form lining                | Plywood (min. 280 g/m <sup>2</sup> coating)   ECOPLY full plastic composite sheet  |
| Lining thickness (coating) | Plywood = 14 mm   ECOPLY full plastic composite sheet = 15 mm  |
| Average weight             | 40 to 65 kg/m <sup>2</sup> (including connection parts)  |
| Max. concrete pressure     | 60 kN/m <sup>2</sup> (line 6)  |
| Corrosion protection       | Fully galvanised steel frame and connection elements   |
| Relevant standards         | Complies with DIN 18216   EN 1993  |
| Standard connection        | RASTO aligning clamp (aligned and flush connection)  |
| Special connection         | RASTO adjustable clamp   Outer corner clamp  |
| Inner corners              | 30/30 cm (with 2° play for easing)   |
| Hinged corners             | From 60° to max. 150° angle  |
| Outer corners              | Basic panel with outer corner clamps   |
| Forming/stripping times    | $t = 0.4 - 0.6 \text{ h/m}^2 \text{ *}$  |
| Special features           | <ul> <li>XXL panel 240 x 270 cm</li> <li>RASTO shaft corner adapter   Panel clamp</li> <li>High quality form lining on all panels</li> </ul> |

• Extensive accessory parts program

With the RASTO aligning clamp, the joints of the RASTO panels are connected light, tension proof and flush without offset in a single working step.

• RASTO: the ideal formwork for smaller and medium-size projects, particularly in the housing sector.

Longer service life due to the robust, galvanised steel frame profile with 12 cm thickness

RASTO as foundation formwork

## **Application & use**

- Ideal for smaller and medium-size projects
- Craneless operation of smaller panels possible

## **RASTO<sup>®</sup>** integrates with

- **TOPMAX**°
- Aligning struts
- Support frames
