Job sites become more productive with our customer portal.

With our customer portal you have a clear advantage.

Full data transparency:

Comprehensive
information for all
project stakeholders

Overview of material

on site for easier job
site controlling, early
returns and thus
reduced rental costs

Uploads and

downloads of
planning data for fast,
paperless exchange.

Differentiated access

to the data through
individual role profiles

... and even more advantages for you:

Data availability around the clock

Clear user guidance – simply log in and get started

High level of data security thanks to encrypted access

Place new orders with ease

Easier use on the construction site via our app

Quick data export to Excel for simplified, project-related analyses
